ABOUT US

G&P Professionals (Sarawak) Sdn Bhd was established in year 2009 with the office in the Capital of Sarawak- Kuching. The company is established to serve the local industries with benefits of sound and value engineering design. As of the member G&P Group of Consultants, the strong specialist supports and local knowledge within the company, G&P Sarawak is capable to provide the engineering consultancy services in water supply & dams engineering, civil & infrastructure, drainage & irrigation, flood mitigation, geotechnical and foundation design, marine and port engineering, structural design, coastal and hydraulic study, environmental study, environmental monitoring plan (EMP) and project management. G&P Professional (Sarawak) Sdn Bhd strives and committed to excel and become the 'One Stop Centre' for the Sarawak engineering consultancy services.

The company is owned and operated by Sarawakian professionals with vast experience in water supply, dam engineering, geotechnical engineering, structural, road works as well as civil works. Our highly qualified and motivated professional team is committed to provide innovative and high quality and 'value for money' services in order to serve the changing needs, within the affordable means of our valued clients.

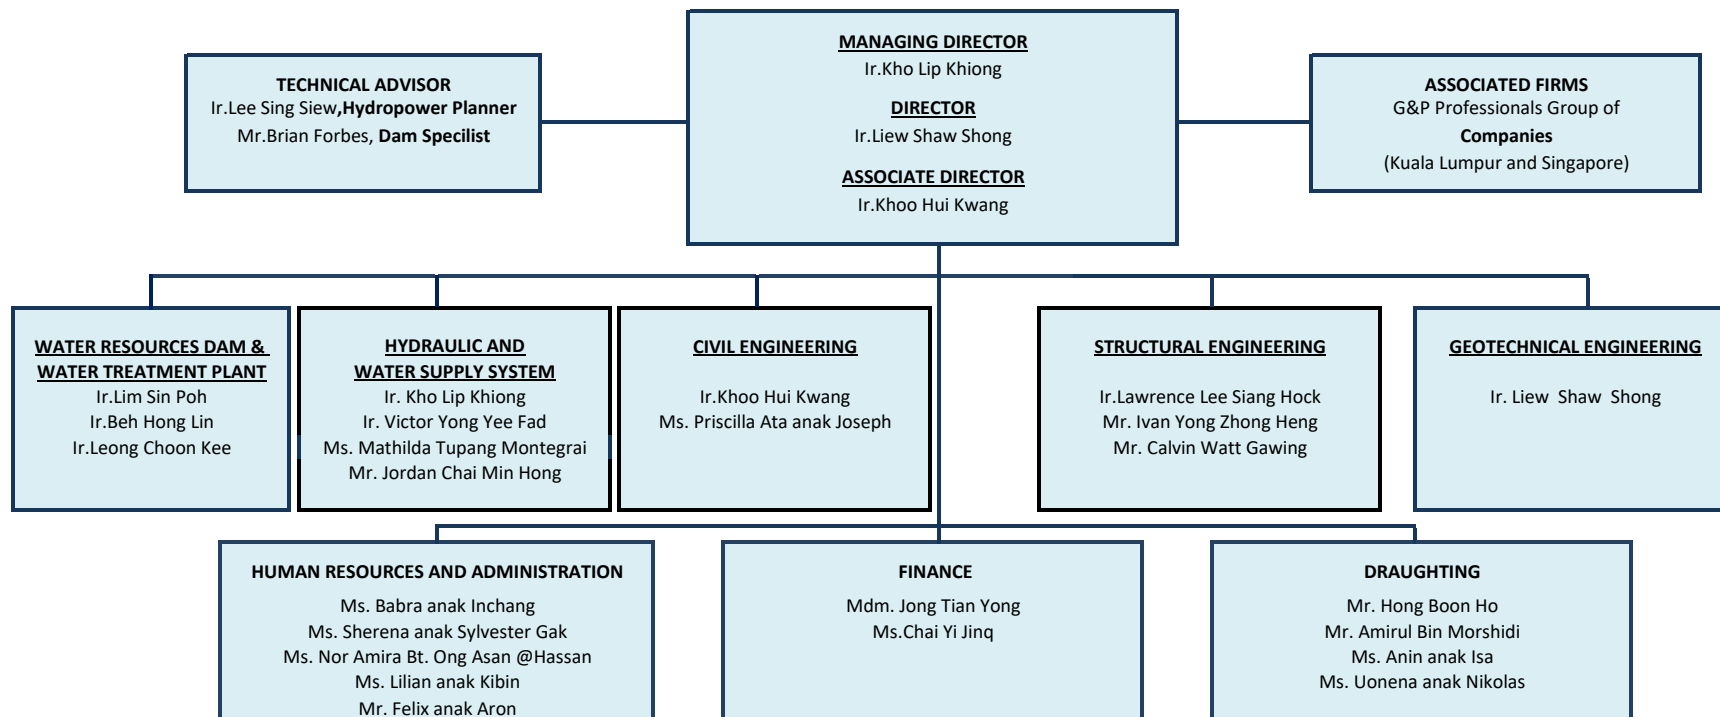

G&P Professionals (Sarawak) Sdn Bhd is registered with Board of Engineers Malaysia (BEM), Ministry of Finance Malaysia (MOF) and Unit Pendaftaran Kontraktor dan Juruperunding Sarawak (UPKJ).

The firm has obtained Quality Management System Certification of ISO 9001:2015 since July 2016.

ORGANIZATION CHART

KEY PERSONNEL PROFILES

Ir. Kho Lip Khiong
Managing Director

**B.E (Hons) (Civil), GCH, MSc,
MIEM, P.Eng, MACEM. MMWA**

Ir. Kho Lip Khiong obtained his Bachelor of Civil Engineering Degree from Universiti Teknologi Malaysia in 1992, he further pursuing his Graduate Diploma on Surface Water Hydrology in University of New South Wales, Sydney, Australia in 1996 and completed his Master of Engineering from Universiti Putra Malaysia in 2002.

From 1992-2004, Ir. Kho has served a number of local and state government authorities such as SESCO, JKR and LAKU where he has gained his experience in Hydrology, Hydropower Dams Feasibility Study, water supply engineering, management & operation of water supply and major development project management. In 2004 he joined an International Consultant as a local partner; he was the Project Director for Groundwater Resources Development in Perak and a major hydropower Pre Feasibility & Feasibility Study in Sarawak. Since Oct 2009, he took up Managing Director for G&P Professional (Sarawak) Sdn Bhd.

PROJECTS HISTORY

The Construction and Completion of Proposed Matading-Bedengan Subcentre, Mukah Division (Phase 1 & 2)

G&P Professionals (Sarawak) Sdn Bhd is engaged by Sarawak Land and Survey Department (L&S) to provide engineering consultancy services for the proposed Phase 1 & Phase 2 of Matading-Bedengan Subcentre, Mukah Division.

The project site is located at the intersection of Mukah/Balingian Road with Oil Palm Scheme (OPS) Road, at about 26km eastbound from Mukah Town. L&S has decided to implement this project into phases due to financial planning. Phase 1, namely the kampong extension scheme, is practically completed in May 2015. The government sub-centre scheme, which is implemented as Phase 2, is currently under final design stage.

Project Particulars:

Client : Jabatan Tanah & Survei Sarawak
Cost (Approximately) : RM5 Million
Contract Period : April 2014 – April 2015 (Phase 1), Tendering Process (Phase 2)

Project Objective:

- The **Objective** of the project is to provide a platform and civil works to the new sub-centre.

Scope of Work:

- The **scope** of this project is limited to providing earthwork, road and drainage facilities.

Proposed Development of Mercedes 3S Center Consist of 3-Storey Showroom and Store, Workshop and Utilities on Lot 198, Jalan Datuk Abang Abdul Rahim, 93450 Kuching, Sarawak, for M/S Hap Seng Realty Sdn. Bhd.

This project was assigned by **G&P Professionals Sdn. Bhd.** to act as the submitting engineer in Kuching and also to lead the C&S supervision team.

Project Particulars:

Client : G&P Professional Sdn Bhd
Cost (Approximately) : RM35 Million
Contract Period : April 2015 – April 2016

Project Objective:

- To construct a 3-S (Sales, Servicing & Store) Centre for Mercedes Benz, Kuching.

Scope of Work:

- As a Submitting Engineer;
- Coordination between Local Authorities, Client and the design team; and
- Site coordination between C&S designers and supervision team, and overseeing site supervision.

Design, Supply, Delivery, Construction, Completion Including Testing and Commissioning of Water Reticulation Works at Khazanah Indah, Jalan Tungku, Lahad Datu, Sabah

The company was appointed by the Design & Build Contractor, Esareka Sdn. Bhd., to provide consultancy services for water reticulation works within the housing estate.

Project Particulars:

Client : Esareka Sdn Bhd
Cost (Approximately) : RM7 Million
Contract Period : Dec 2013 – Dec 2014

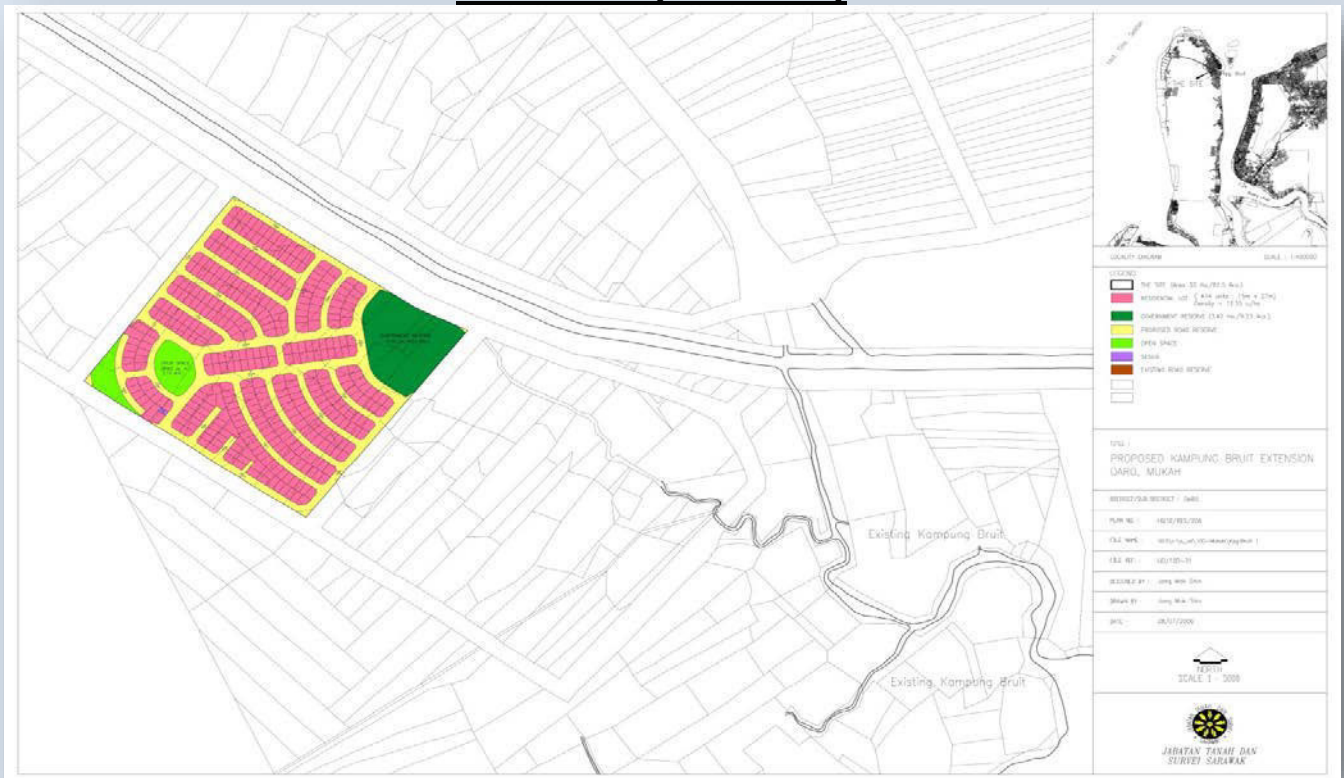

Project Objective:

- The **objective** of the project is to provide the consumer a sufficient potable water supply to meet the imposed demands by both consumer and firefighting requirements.

Scope of Works:

- Technical design and support on the overall water reticulation works
- Preparation of quantity take-off, schedule of rates and construction drawings
- Liaise and coordinate with Jabatan Air Sabah & Lahad Datu on behalf of client
- Project coordination during construction stage

THE CONSTRUCTION AND COMPLETION OF PROPOSED KAMPUNG BRUIT EXTENSION, DARO, MUKAH DIVISION (PHASE 1)

G&P Professionals (Sarawak) was appointed by the government, to provide consultancy services for detailed ground survey and engineering design for kampung extension/resettlement scheme.

Project Particulars:

Client : Jabatan Survey & Tanah Sarawak
Cost (Approximately) : RM4 Million
Contract Period : April 2015 – April 2016

Project Objective:

- To provide the ground survey and investigation, design, tender documentation and supervision of Kampung Extension/Resettlement Schemes in Sarawak.

Scope of Works:

- Engineering Survey such as subsurface Investigation and topographical survey.
- Engineering Design covers Geotechnical and Civil & Structures Works
- Preparation of quantity take-off, schedule of rates and tender drawings

Miri Water Supply Source Development

G&P Professionals (Sarawak) Sdn Bhd was appointed by the Government of Sarawak in year 2011 for consultancy services for the Miri Water Supply Source Development.

Project Particulars:

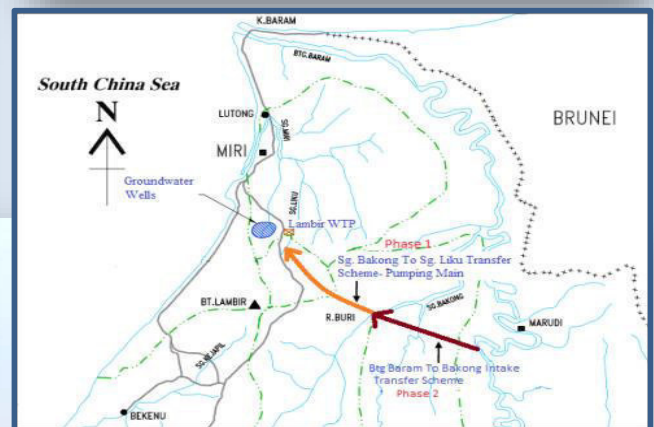

- Phase 1 : Upgrading of Bakong Intake and Pumping Main
Client: Jabatan Kerja Raya, Sarawak
Contract Sum (Approx.): RM 52 Million
Contract Period: 12 Months (November 2014 – November 2015)
- Phase 2: Development of the Raw Water Transfer System from Btg. Baram
Client: Jabatan Bekalan Air Luar Bandar, Sarawak
Project Cost (Approx.): RM 280 Million
Status: Feasibility Study Completed.

Project Objective

To carry out raw water source development to meet increasing water supply demand of Miri City and its vicinity up to year 2030. The project is to be implemented in two phases namely upgrading of Bakong Intake and Pumping Main in Phase 1 and Raw Water Transfer System from Btg. Baram in Phase 2.

Scope of Works

- Carry out preliminary study, engineering analysis and design of project components.
- Prepare tender and contract documents.
- Contract administration and construction supervision

Sungai Asap Water Supply System

The Design and Build Project comprises a 5MLD Water Treatment Plant, 2 number of Ground Reservoirs and 72km of Pipeline Replacement for the Sungai Asap Bakun Resettlement Scheme Water Supply System.

Project Particulars:

Client: Kiasan Engineering Sdn. Bhd.

Contract Sum (Approx.): RM 69 Million

Contract Period: 24 Months (January 2016 –January 2018)

Project Objective: To replace the aging water supply system in the Sungai Asap Bakun Resettlement Scheme comprising of the water treatment plant, treated water reservoirs and distribution pipelines.

Scope of Works:

- Plan and supervise SI and engineering survey works.
- Detailed design of water supply pipeline and related civil works.
- Authority liaison and QA/QC supervision.
- Contract document preparation and project costing.
- Contract management and construction supervision.

Provision of Consultancy Services for Sg.Similajau Reservoir and Associated Facilities,Bintulu

G&P Professionals (Sarawak) Sdn Bhd was appointed by the Government of Sarawak in year 2013 to provide the consultancy services for Bekalan Air Samalaju, Bahagian Bintulu, Sarawak – Phase 1 Stage 3B: Proposed Sg. Similajau Reservoir and Associated Facilities.

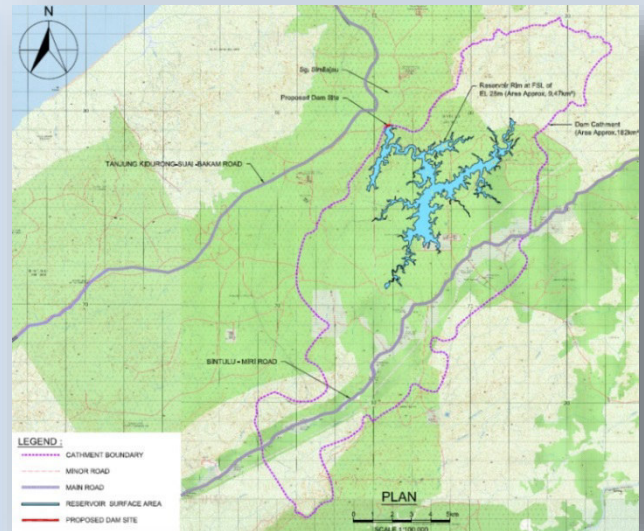

Project Particulars:

Client : Jabatan Kerja Raya, Sarawak
Contract Period : 36 months (February 2013 – February 2016)
Project Cost (Approx.) : RM 115 Million

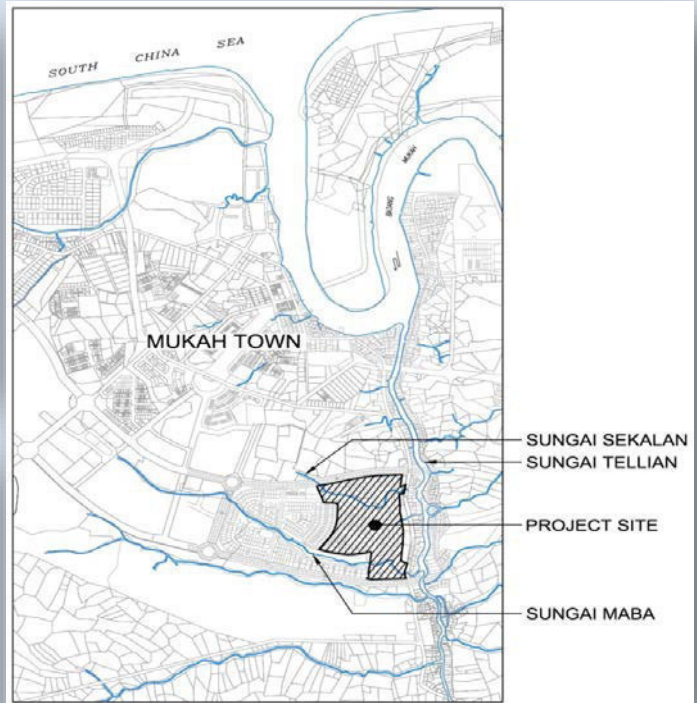

The objective of the project is to provide sufficient raw water supply to Samalaju, District in the Bintulu Division.

Scope of Works:

- Pre-Design Assessment Study by reviewing all previous works on the project, available data and also preliminary field works and engineering analysis.
- Primary and Detailed Designs which include Dam design, Mechanical and electrical plant and equipment, and infrastructure design.
- Tender Documentation
- Construction Supervision

The Construction and Completion of Proposed Kampung Tellian Tengah Extension, Mukah (Phase 1)

G&P Professionals (Sarawak) Sdn Bhd is engaged by Sarawak Land and Survey Department (L&S) to provide engineering consultancy services for the proposed Kampung Tellian Tengah Extension, Mukah (Phase 1). The project site is located at south-east and approximately 3km from Mukah Town.

Project Particulars:

Client : Jabatan Tanah & Survei,
Sarawak

Cost (Approximately) : RM5 Million

Contract Period : 15 Months

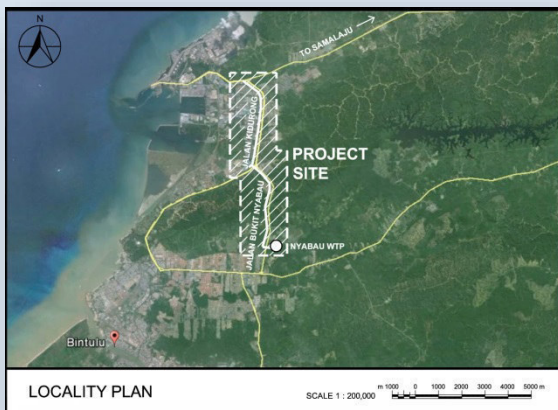

Project Objective:

- The objective of the project is to provide ground survey and investigation, engineering design, tender documentation and supervision of the Kampung Extension / Resettlement Schemes.

Scope of Works:

- Engineering Survey such as subsurface Investigation and topographical survey.
- Engineering Design covers Geotechnical and Civil & Structures Works
- Preparation of quantity take-off, schedule of rates and tender drawings

Proposed Pipeline From Nyabau Water Treatment Plant To Kidurong Industrial Estate, Bintulu Division

G&P Professionals (Sarawak) Sdn Bhd is invited by Jabatan Bekalan Air Luar Bandar, Sarawak (JBALB) via their Letter of Intent dated 18 December 2015 to submit a Technical & Financial proposal for the provision of Consultancy Services to complete the Investigation, Survey, Design, Tender Documentation and Construction Supervision for this project.

The proposed new pipeline shall start from Nyabau Water Treatment Plant along Jalan Bukit Nyabau and Jalan Kidurong, northbound towards Tanjung Kidurong Industrial Park.

Project Particulars:

Client : Jabatan Bekalan Air Luar Bandar, Sarawak
Cost (Approximately) : RM20,000,000.00
Contract Period : 38 Months

Project Objective:

- The Objective of the proposed new pipeline is to supplement the current water supply system which is deemed necessary to provide reliable water supply to Kidurong Industrial Park.

Scope of Works:

- To propose, coordinate and oversee / supervise the detailed engineering survey, sub-surface investigation and other necessary engineering investigations deemed necessary;
- Collect and analyze all available data, records, drawings, reports, etc;
- Survey the existing utility services and liaise with authorities on the relocation plan;
- Obtain wayleave approval for the proposed pipe route;
- Prepare land acquisition plan;
- To carry out detailed engineering design including preparing design calculation, reports and drawings;
- Quantity take-off, preparation of tender documents and drawings, tender estimates, and assist the Client in calling of tender and carry out tender evaluation and recommendation; and
- Provide construction supervision services.

DAM SAFETY REVIEW FOR GERUGU DAM: HYDROLOGICAL REVIEW, RESERVOIR STORAGE AND YIELD REVIEW, STORAGE PREDICTION MODEL, DAM BREAK STUDY, EMERGENCY RESPONSE PLAN AND DAM SAFETY INSPECTION & REVIEW

G&P Professionals (Sarawak) Sdn Bhd was appointed by the **Jabatan Bekalan Air Luar Bandar Sarawak (JBALB)** in year 2017 to provide the consultancy services for the Dam Break and Safety Review Study at Gerugu Dam, Sarikei

Project Particulars:

Client : Jabatan Bekalan Air Luar Bandar (JBALB), Sarawak
Fees (Approximately) : RM 1.3 Million
Study Period : 10 months (March 2017 – December 2017)

Study Objective:

- To study and simulate the movement of a dam break flood wave along a valley or indeed any area downstream that would flood as a result of dam failure, to identify the risk quantum area.
- To ensure that each dam is operated and maintained in a safe manner and to minimize the risks associated with a dam failure
- To conduct a physical review and assessment of integrity of the Gerugu Dam
- To formulate a strategic evacuation plan and drill exercise

Scope of Works:

- Review the Probable Maximum Precipitation (PMP) and Probable Maximum Flood (PMF)
- Review the reservoir storage and yield based on updated reservoir bathymetry and catchment landuse changes
- Develop a reservoir storage prediction model as a decision-support tool for release of water during droughts
- Produce flood maps under various dambreak scenarios and describe the flood extent caused by dambreak to downstream areas
- Review and update the emergency response plan (ERP)
- Carry out inspection and review on dam safety based on the operational, surveillance, structural, and geotechnical aspects
- Develop a GIS-based database system for management dam-related information
- Drill exercise (Local Authority and community engagement).

Feasibility Study for The Proposed Development of Betong Raw Water Source, Bahagian Betong, Sarawak

G&P Professionals (Sarawak) Sdn Bhd was appointed by the **Government of Sarawak** in year 2015 to provide the consultancy services for the feasibility study of the Betong Raw Water Source Development.

Project Particulars:

Client	:	Jabatan Kerja Raya, Sarawak
Cost (Approximately)	:	RM2.5 Million
Study Period	:	7 months (September 2015 – March 2016)

Study Objective:

- To develop an effective system for the development of raw water source in order to meet the long term treated water demand of Betong district region.

Scope of Works:

- Comprehensive projections of treated water demand and raw water requirements up to year 2050. Evaluation of Technical and Financial viability of various possible raw water source options. Formulation and proposal for an effective strategy for implementation of most optimum raw water source option.
